DETAILED ACTION

Allowable Subject Matter

1. **Claims 11-22, 24-32 and 35-52** are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to claims 11, 25 and 38: These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a structure for optical clock distribution comprising at least one vertical-to-horizontal input diffraction grating, at least one horizontal-to-horizontal diffraction grating and at least one horizontal-to-vertical diffraction grating in the core layer wherein each grating diffracts the clock signal in a plurality of directions so the signal is uniformly distributed vertical, laterally and vertically again throughout the structure substrate, in combination with the rest of the claimed limitations.

With regard to claims 12-18, 26-27 and 50-52: These claims are allowable over the prior art of record because they depend from allowable claims 11 and 25:

With regard to claims 19, 22, 28 and 35-37: These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a structure for optical clock distribution comprising an integrated circuit device or substrate, a first cladding disposed on the device or substrate, a core layer disposed on the first cladding, a second cladding disposed on the core, a vertical reflection absorption layer adjacent the first or second cladding depending on which has the following gratings disposed in them (wherein if the gratings are in the core, then the

absorption layer is on the second cladding layer): at least one vertical-to-horizontal input diffraction grating, at least one horizontal-to-horizontal diffraction grating and at least one horizontal-to-vertical diffraction grating or disposed on the layer wherein at least one of the gratings diffracts the clock signal in a plurality of directions so the clock signal is uniformly distributed through the layer wherein if the gratings are in the first cladding, the second cladding is not needed, in combination with the rest of the claimed limitations.

With regard to claims 20-21, 24, 29-32, and 39-49: These claims are allowable over the prior art of record because they depend from allowable claims 19, 22 and 28:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
